Excellent student feedback:

John Zissimou says "My software design and development skills and database knowledge are well developed to industry standards as a direct result of my placement at Pickfords. I feel more ready to face tough competition in jobs!"

Eigi Damdin says "SEW events made me realise what industry expects out of University graduates and helped me in choosing the placement module realising its relevance to today's job market."

Majid Afzal (MSc Computing) says "Without The WOW Agency – I would never have had the opportunity to gain real experience on real projects and to have gained all the confidence that comes from working with WoW."
