

**FOR IMMEDIATE RELEASE**

## **Faculty of Computing Summer Show 2010**

The Faculty of Computing is pleased to announce their annual summer show Digital Toy box which will be held on 9 and 10 June.

Students from the Faculty of Computing at London Metropolitan University will be showcasing some of their most exciting and innovative work.

We are pleased to invite you to come and watch animations and short films, play with toys and games, see concept art and show-reels, visit virtual landscapes and test new software applications for mobile and laptop technology.

You will have an opportunity to meet the up and coming talents of the gaming world, talk to staff and enjoy some refreshments.

Fiona French, Senior Lecturer said, "expect to jump around planets in solar systems inspired by Miro, hunt savage beasts on remote Scottish islands, play tunes on the SockSquid, see robots transforming into helicopters... and slay the odd dragon or two!"

Whether you are a gaming enthusiast, working in the industry or looking for a fun half-term activity this free event promises a great time.

**- Ends -**
