

## Web Browser Guidance for Mac Users

1. To use our e-Recruiting system, Mac Users will need to use Firefox as their browser. The latest version of Firefox can be downloaded from:

<http://www.mozilla.com/en-US/firefox/all.html>

2. Mac users must also download an add-on called Quartz-PDF. This add-on can be downloaded from:

<http://code.google.com/p/firefox-mac-pdf/downloads/list?q=label:OpSys-OSX>

For Firefox 3.x use version 1.1.2

For Firefox 3.5. or later use version 1.1.3

This will work in Mac OS 10.5 (Leopard) and Mac OS 10.6 (Snow Leopard).

It will also work in older versions of OS X with previous versions of Firefox and the add-on installed although these are not supported.

3. You will also need to have Adobe Reader X on your MAC in order to use our e-Recruiting system. If you do not already have this you will find a link on our Staff Vacancies web page which will take you to where you can download it.
