

**Undergraduate
Prospectus
2018–19**

“Some of my fondest memories, as someone who was born and raised in London, date back to my years as a student at the University of North London, now known as London Metropolitan University.”

Sadiq Khan, Mayor of London

Welcome to London Metropolitan University

By studying here you'll not only set yourself up for a rewarding and successful career, you'll also make friends for life.

London Met graduates Nicole and Whitney, featured on page 133, met on their course and have since launched their own business with the help of London Met. On page 6 you'll find Anna and Evelina – they're business partners too and sell their products, Arctic Power Berries, to retailers including Ocado, Selfridges and Harrods. Winter and Quoc (page 30) studied Games Modelling, Animation and Effects together and were both members of the Games, Tabletop, Sci-fi and Fantasy society. Davide, Teeyaya-Love and Tamara on page 38 met for the first time at our photo shoot and hit it off immediately.

This is what we're all about at London Met. We'll provide you with a first-class education, a wealth of opportunities to boost your employability, a diverse and welcoming environment where you can make incredible lifelong friendships, and much more.

Join Nicole, Whitney, Anna, Evelina, Winter, Quoc, Davide, Teeyaya-Love, Tamara and our many other students and graduates, and start your London Met journey today.

We'll make sure that setting off on that journey is as easy and stress-free as possible. In this prospectus you'll find all you need to know about applying, from finding the right course and how to fund it, to getting information about where you can live, how you can get involved in student life and all the incredible opportunities London Met has to offer.

We'd love you to join our exciting community. You can get in touch with our friendly team of advisers by calling **+44 (0)20 7133 4200** or visiting **londonmet.ac.uk/contact**. We're always happy to answer your questions!

Why London Met?

From first-class facilities and teaching excellence to the University's location in one of the world's most exciting capital cities, there are a huge number of reasons to study at London Met. Here are the answers to a few questions you may have about the University...

What's the campus like?

We currently have campuses in Islington, Moorgate and Aldgate, but our Islington campus will be undergoing some exciting new changes over the next couple of years to enable our students to study together in one location. The new campus, just minutes from Camden, Dalston, Shoreditch and the City of London, will benefit from a £125 million investment and see all of our students brought together for the first time in our 170-year history. For more information about our exciting transformation turn to page 23.

Who will I be taught by?

London Met's focus on teaching standards has seen it ranked above some of the capital's most prestigious institutions for teaching excellence. You'll be inspired by a team of dedicated lecturers, including award-winning architects, acclaimed writers and scientists who are engaged in exciting research. We also welcome influential guest speakers who visit the University to give our students further insight into their industries. Guests have previously included the Chief Executive of Emirates Airlines, a former editor of *The Guardian* and Channel 4 presenter Jon Snow.

How affordable is it?

Other universities may offer you free books or a tablet but here at London Met you could get cash towards your studies, allowing you to make those all-important spending decisions yourself. Turn to page 30 to find out how our bursaries and course fee reductions could make your studies more affordable. In 2015–16 we awarded more than £1.5 million in bursaries to our students.

What are my job prospects?

We take pride in helping you reach your goals and succeed in your chosen career. We maintain strong industry links to ensure you gain vital professional experience while you learn, with courses carefully crafted to incorporate new and emerging industry trends and practice. We also help you find work placements and part-time job opportunities, giving you the chance to gain valuable industry experience while studying with us. In fact, every undergraduate student is guaranteed some form of work experience as part of their course. Our business incubator, Accelerator, can also help you set up your own business. Find out more about how we can help improve your job prospects on page 12.

Who else has studied here?

By studying with us you'll be following in the footsteps of impressive graduates who have gone on to impact the worlds of politics, business, entertainment and more. Mayor of London Sadiq Khan, comedian Vic Reeves and Cobra Beer founder Lord Billimoria are all London Met graduates. They join a growing list of influential figures who studied with us, including former Chief Executive of clothing brand Whistles, Jane Shepherdson, Labour politician Jeremy Corbyn, director, producer and Doctor Who actor, Noel Clarke, and Warsan Shire, whose poetry features in Beyoncé's 2016 album Lemonade.

What facilities will I have access to?

From our £30 million Science Centre and purpose-built art and design studios to our mock courtroom and £100,000 journalism newsroom, our buildings house excellent state-of-the-art facilities where you can hone your skills. As well as subject-specific facilities, which you'll find details of in our courses section (pages 48 to 163), we offer a wide range of IT and learning resources to help you during your studies. Turn to page 42 for details.

How flexible are your courses?

We offer many of our courses on both a full-time and part-time basis. A growing number are also available to start in January or September. For full details, take a look at our courses section from page 48.

Who will I study with?

We're proud of our vibrant, multi-ethnic and socially diverse community, and encourage you to join us. We were recently ranked ninth out of all the universities in the UK, USA, Australia and New Zealand for diversity by Hotcourses Abroad. No matter what your age or background, we'll ensure you have the best possible university experience.

What are your graduates doing now?

Our graduates have gone on to work at companies including the BBC, PricewaterhouseCoopers, the Bank of England, Alexander McQueen, Google, British Airways, Ernst & Young, J P Morgan and the British Museum, among other high-profile companies.

How green are you?

We're committed to reducing our environmental impact and using resources in an environmentally sustainable and responsible way. We've installed LED lights, solar panels and improved insulation, all of which have helped to increase the energy efficiency of our buildings. As a result we've won numerous accolades including multiple Public Sector Sustainability (PSS) Awards and Islington Sustainable Energy Partnership's gold certification. We've also been named "best in England and Wales" for carbon reduction in the University Carbon Progress Report, were highly commended at the Green Gown Awards and smashed our 2020 carbon reduction targets by the end of 2016.

Where will I study?

Our location in one of the world's most exciting capital cities gives you access to an abundance of opportunities, from the best places to meet new people and socialise to being on the doorstep of some of the most successful businesses in your field. Turn to page 16 to read more about what the capital has to offer.

What types of degree are there?

There are a number of different types of course you can study as a first degree. Factors that determine which one you study include what grades or qualifications you have, what you want to get out of your degree and how long you want to study for. Here's a run-down of the types of degree course we offer to those looking to study at university for the first time:

What's the most popular first degree?

An undergraduate course (known as a bachelor's degree) is usually the first degree you'll apply for and normally takes three years to complete. You'll graduate with a Bachelor of Arts (BA), Sciences (BSc) or Engineering (BEng), depending on your choice of subject.

The basic building blocks of an undergraduate degree are modules. Each module is usually worth either 30 or 15 credits and an honours degree is awarded to students who achieve 360 credits. You'll study some core modules, which are compulsory, and some option modules, which you can choose according to your own interests.

What is an extended degree?

If you don't have traditional qualifications or can't meet the entry requirements for an undergraduate degree, you may still be able to gain entry by completing an extended degree. Extended degrees include Year 0, also known as a foundation year. Once you successfully complete your first year of study you'll progress into Year 1 of an undergraduate degree. Therefore, if you're studying full-time, it will take a total of four years to complete your extended degree.

What other foundation degrees are there?

A foundation degree (FdA/FdSc) is a vocational qualification that is the equivalent of two thirds of a full honours degree. You'll be able to gain professional and technical skills to further your career in a shorter time frame than a full degree. We offer foundation degrees in subjects including Dance (page 65), Digital Media Design (page 102), Furniture (page 59), Early Childhood Studies (page 135), Education (page 137), Early Childhood Practice (page 139) and Working with Older People (page 144). Most of our foundation degrees are taught at our partner institutions, City and Islington College, Hackney Community College, Lambeth College and Montessori Centre International.

“My communication, organisation and reading skills have all improved. At first it was challenging, but as I progressed through the course I was able to face my challenges and overcome them with the help of my lecturers.”

Extended degree student

**What are
my career
prospects?**

One of the things that sets London Met apart from many other universities across London and the UK is our focus on employability. The 2014–15 Destinations of Leavers from Higher Education (DLHE) survey found that 93% of all our graduates were in work or further study within six months. We're here to help you on your way to a successful and rewarding career:

What careers advice do you offer?

We want your London Met journey to end in employment, which is why we offer comprehensive careers advice to help you reach your goals. As well as giving you access to a wealth of information online, including insider tips on how to use social media to your advantage and useful websites where you can start your job search, we also offer:

- one-to-one meetings with our careers consultants for personalised advice and support
- a mentoring scheme that puts you in touch with a career mentor from your chosen employment sector – this has proved extremely valuable for many of our graduates
- a vibrant volunteering programme that can provide you with experience in community-based organisations and give your CV a boost

What if I'm an international student?

As an international student, you're welcome to access all of the resources offered by our careers team. You can also attend workshops focused on working in the UK after graduation.

Are there work experience opportunities?

Absolutely! All our undergraduate students are guaranteed a work-based learning opportunity, which counts towards your studies. This often comes in the form of a work placement module and will give you practical knowledge and skills that you can take with you into the workplace.

Can I earn while I learn?

There are plenty of job opportunities available on campus – and these are offered to our students first. We have an in-house temping agency that advertises jobs on campus and you can also apply for a role as a student ambassador or success coach. All of these positions are paid the London Living Wage and are a great way of earning a bit of extra cash while you study.

Do you offer internships?

We do – and lots of them. Through our graduate internship programme we offer approximately 30 paid internships across our University departments every year. You could be making videos, championing sustainability, writing press releases or working on something else entirely. Our interns have gone on to work at organisations such as Google and Nickelodeon. It's the perfect opportunity to get your foot on that all-important career ladder.

What company connections do you have?

We maintain strong industry links to ensure you have access to employers throughout your studies. In the past, we've welcomed speakers from companies including Apple, O2, the MOBO Awards, Emirates Airlines and *The Guardian*. Many of our courses are also accredited by professional bodies, giving your qualification extra weight.

What if I want to set up my own business?

Starting a business when you finish university is a great way to take control of your future – and our business incubator, Accelerator, will provide you with all the advice, support, networks, knowledge and resources you need to get started. Based off-campus in the heart of London's Tech City in Shoreditch, Accelerator has helped to launch student businesses including Arctic Power Berries, Melting Pot LDN, Dottore London, *Young Pro Magazine* and Dancing After School.

What exactly does Accelerator offer?

There are a number of Accelerator initiatives you can get involved with throughout the year. They include:

- Launchpad – Delivered in one-day sprints over 10 intensive weeks from June to September, Launchpad gives passionate students and graduates the knowledge, tools and support needed to fast-track an idea into a viable start-up venture.
- The Big Idea Challenge – This idea and pitching competition sees students compete for prizes across three categories (Commercial, Social Impact and Creative).
- Market Days – Here students can gain real world experience selling their own products at a busy London market.

For more information on the ways Accelerator can help you, visit:
londonmet.ac.uk/accelerator

How can I stay connected once I leave?

When you graduate, you can become a member of our Alumni Association, offering an ideal way to stay in touch with your former classmates and lecturers. We run a comprehensive programme of free events that give you the opportunity to network with fellow graduates and hear guest speakers talk on pertinent topics. These events provide valuable training that will help to enhance your personal and professional development.

Will I get any other benefits as a graduate?

Alumni benefits also include access to our libraries and careers service for a number of years after graduation.

What if I want to go on to further study?

We offer our graduates healthy savings on our postgraduate courses. You could save up to 20%. For more information, visit:
londonmet.ac.uk/feereductions

A graduate in a black cap and gown is celebrating with her arms raised and a phone in hand. She is wearing a white lace dress and silver high-heeled sandals. The background is a dark, wood-paneled wall. Another graduate is visible in the background, also celebrating.

Our graduates have gone on to work at companies including the BBC, PricewaterhouseCoopers, the Bank of England, Alexander McQueen and the British Museum.

What's London life like?

Welcome to one of the world's most exciting urban playgrounds. Whatever you're into, you'll find it here. London Met is located in the middle of the north and east London action – and you're just a quick hop away from central London's multiple attractions. Here's just a taste of what's on offer:

Where can I go for a top night out?

Union Chapel – It's always worth checking out who's playing at this spectacularly atmospheric Islington music venue with great acoustics.

Proud Camden – Housed in an old horse hospital complete with outdoor bar area, you can't beat this incredible venue for great sounds.

Piccadilly Institute – The definition of student clubbing, this gigantic space in bullseye central London covers three floors with six different dance rooms.

Bounce in Old Street and Farringdon – Ping pong and cocktails. Need we say more?

Drink, Shop & Do – Café by day, bar by night. Lego robot competitions, clay making, board games and pitchers of punch.

What's on offer for media buffs?

Yes, you really can watch movies for £1 in London (if you become a member of the **Prince Charles Cinema**).

Under 25s can see movies for £3 at **BFI Southbank** and for those who like to splash the cash and enjoy the great outdoors, there's always **Shoreditch's Hot Tub Cinema** as well as a growing number of rooftop and secret cinemas.

Join the BBC audience – Show your mum you're alive and well by appearing in a range of BBC TV shows. Head to bbc.co.uk/tickets to apply.

What if I'm a culture vulture?

Pay homage to South Kensington where you can see the big three for free – that's the **V&A**, the **Natural History Museum** and the **Science Museum**. The **Tate Modern** is also a glorious spot (even if you just go for the balcony river view).

Lesser-known independent galleries include **Banner Repeater** (visit Platform 1 on Hackney Downs railway station), the **Crypt on Euston Road** or, if you venture east, you'll find the likes of the **Chisenhale Gallery** and **Village Underground**.

Sit in judgement – Take a seat in the public galleries of London's most famous criminal court and get to know the intricacies of a case. Visit cityoflondon.gov.uk to find out how.

Wellcome Collection – Get up close and personal with implements and curios relating to the medical trade, from early body tattoo designs to used guillotine blades, Napoleon's toothbrush and more.

“The only road in the country where you can eat in an Ecuadorian-Bolivian restaurant and buy a made-to-measure 40s-style wiggle dress.”

Time Out London on Holloway Road

Bookish types should get themselves signed up to **Caboodle** for literary culture fixes complete with free wine.

Fancy a London bus tour but can't stump up the fees? Just use your Oyster card plus a £2 self-guided tour (our favourite is the number 15 bus).

londonforfree.net/bus-tour

Get yourself to Theatreland's official ticket booth, **TKTS**, for massive last-minute discounts on big West End shows.

Where can I go to set my pulse racing?

You can practically touch the **Emirates Stadium** (Arsenal Football Club) from our very own Tower Building. Also close by is **Finsbury Park**, home to several American football teams.

Clubbercise with glowsticks – What's not to like? **Platform Hub** at Hornsey Baths is just a dance anthem away.

Take our **Tower Challenge of Terror** – Race up 226 stairs (13 floors!) in our tallest building. Current record: one minute, 22 seconds...

Hire a bike from the **VeloPark** at the Queen Elizabeth Olympic Park where Sir Chris Hoy graced the velodrome.

Take a taster session at the **Castle Climbing Centre** in N4.

Where can I eat?

From ackee and saltfish to za'atar-spiked flatbread, you'll find plenty of budget-friendly options including:

Momas – Get your veg on with tasty, healthy and cheap eats on Holloway Road from £3.50.

Dirty Burger/Chicken Shop on Holloway Road – oh so bad for you but oh so good. Student discounts too.

Hummus Bros – The humble chickpea taken to delicious heights. Nailed it.

Pho Café – Super-fresh, well-flavoured Vietnamese soups, noodles and more, to be found in Spitalfields and Islington.

Whet your taste buds at London's many temples to street food including Dalston's **Dinerama** and **Maltby Street Market** in SE1.

And drink?

The Coronet – Drink in the faded glamour of its 1940s origins as the Savoy Cinema but with Wetherspoons prices.

Dishoom – Savour a souped-up Asian cocktail in the underground splendour of this Bombay-inspired bar. (Ok, this one isn't cheap but we like it).

Where's best to shop?

Vintage finds and charity-shop bargains abound on Holloway Road, as well as nearby fleamarket havens Camden and Brick Lane. You'll also find your NUS extra card discounts pretty handy when browsing Topshop, Jack Wills, Apple and Amazon just to name a few.

I'm a nature lover. What's on offer?

Hampstead Heath's swimming pond – Embrace your inner green and take an icy dip in an ancient clay pit surrounded by quiet, pristine forest.

Woodberry Wetlands – Get your nature fix and go kingfisher spotting in this hidden 17-hectare wildlife haven, recently regenerated.

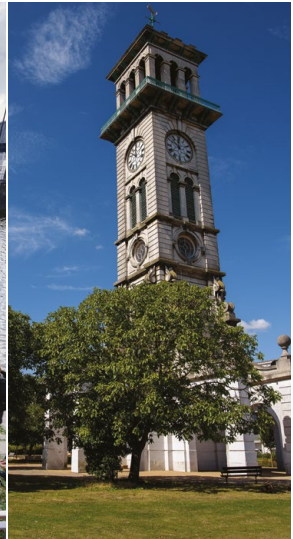

Hackney Marshes – Walk, run, cycle or picnic. 10km of wild landscape – the perfect Sunday stroll.

The Parkland Walk – Why not visit our neighbouring local nature reserve (London's largest)? It's a hop, skip and a jump from our Islington campus to boot!

A Sunday taste of the tropics – Enter the hidden oasis of the **Barbican's amazing conservatory**.

“A nineteenth-century reservoir teeming with unusual wildlife”

Time Out London on Woodberry Wetlands

A photograph of a park scene. In the foreground, a wooden deck chair with a green and white striped fabric is set up on a grassy area. To the right, a man in a grey t-shirt and dark shorts is jogging on a paved path. The background shows more people sitting on chairs and lush green trees. An orange speech bubble is overlaid on the center of the image, containing the text.

green space**

**Where are
you and
how can
I visit?**

“I’m excited about being on one campus because more people means more great ideas!”

Demi, third year student

Between now and 2020, we’re investing £125 million to create a single-campus university based in Islington, where some of our courses are already based.

Our art courses are currently taught in Aldgate and our business and law courses in Moorgate and Aldgate. This will be the first time in our 170-year history that all of our subject areas will co-exist in one location and we’re excited by the opportunities for collaboration this brings.

How will this benefit me?

As part of our Islington community, you’ll benefit from:

- improved study and social spaces
- new and updated facilities
- a vibrant and cohesive university
- opportunities for joint initiatives and exciting possibilities for activities outside of your subject

Our staff and students from our art, architecture and design school, The Cass, will be involved in enhancing the creative and vibrant environment at our Islington campus and engaging with the community that surrounds us. Business and law staff and students will be able to share their expertise and provide commercial perspectives to courses in other areas, engaging directly with students on work-based projects, mentoring, work shadowing and internships.

We were recently awarded our highest ever student satisfaction score in the National Student Survey and are committed to involving you in creating a stronger community. We already have strong links within our local community, where we’re involved in everything from assisting in sports work placements at Arsenal Football Club to installing student street furniture in Aldgate.

What kind of community links do your staff have?

We’re proud to have many staff members with deeply embedded community links that help to shape our courses, including:

- a writer for *The Guardian* (journalism lecturer Anne Karpf)
- advisers for the Police Now scheme (police studies lecturers Dr Robin Bhairam and Professor John Grieve)
- a designer for Damien Hirst’s new RIBA award-winning gallery (architecture lecturer Peter St John at Caruso St John)
- a mental health expert who has presented to global specialists at Oxford University’s Ethox Centre (health and community development lecturer Dr Rochelle Burgess)

One Campus, One Community is a multi-year project. Teaching has already begun to move to Islington, but many courses will continue to be taught at our Aldgate and Moorgate sites until at least 2019. We will fully support you throughout any transition to ensure that you gain the best experience from your time at London Met, regardless of where you study.

To find out where you will be studying, please contact our Admissions team on **+44 (0)20 7133 4200**. For more information about our exciting developments, visit: **londonmet.ac.uk/onecampus**

How can I visit?

Coming along to an open day is a great way to get to know us. Book online at **londonmet.ac.uk/opendays** and you can:

- meet students and staff
- have questions about your course answered
- find out about support services such as our Disabilities and Dyslexia Service
- get information on fees, funding and scholarships
- attend interactive subject workshops
- meet and network with like-minded individuals

What if I can't make it to an open day?

If you can't attend one of our main open days, don't worry, you can still come and see us. We run mini open events where you can take a tour, talk to tutors and chat to our friendly student support staff. Book online: **londonmet.ac.uk/opendays**

Do you run campus tours?

We run regular campus tours. Take your time exploring our £30 million Science Centre, journalism newsroom, numerous art workshops, or our mock courtroom, and ask our guides about life at London Met. To book, visit:

londonmet.ac.uk/campustours

Can I get face-to-face help with my UCAS and student finance forms?

Yes you can – if you're finding the UCAS application or the Student Loans Company form daunting, come along to one of our UCAS application or funding workshops. Available throughout the year, our workshops are run by experienced advisers who can help you through the process. See more at:

londonmet.ac.uk/workshops

Once I've applied, can I still visit?

If you've received an offer to study with us, we'll invite you to various events where you can meet academics and find out more about accommodation, our support services and what's going on around campus.

If you've got any questions please call our enquiries team on: **+44 (0)20 7133 4200**

“@LondonMetUni today has just been amazing, met so many cool people #MetOpenDay”

Twitter user

Can I get involved in student life?

Getting involved in a society, taking up a new sport or joining a campaign is a great way to learn different skills, get to know the University and London, and, of course, to make new friends.

Wherever your interests lie, taking part will also boost your career prospects by adding value to your graduate profile – potential employers are always interested in hearing about the kinds of things you were involved in at university.

What's on offer?

- You can get involved as a journalist, graphic designer, DJ, researcher, technical assistant and more with our student magazine and radio station, **Verve Magazine** and **Verve Radio** – run by students for students. Tune in online (ververadio.co.uk/listen) to listen to a show or pick up a copy of the magazine at an open day to read our latest news and reviews.
- **Student societies** – The Honey Tasting Society, Film Society, Hiking, Walking and Sightseeing Society, Music Industry Management Society, Amnesty International Society, Italian Society and many many more – there's a whole range here, but if none of them catch your eye, you can always set up your own.
- **Team sport** – Joining the football team or taking up badminton isn't just about getting fit; it's also a great way to have fun, make new friends and gain excellent teamwork skills. Rugby, basketball, cheerleading, futsal, cricket, football, badminton, tennis and volleyball are just a few of the sports in which you can participate. Some of our teams also represent London Met in the British Universities and Colleges Sport (BUCS) championships and the London Universities Sport Leagues (LUSL).

- If you see a red hoody-wearing student around campus you know they're a member of one of our sports teams. We recently launched a Sea of Red team sports card. For £30 you receive a Sea of Red hoody, a qualified coach for matches and training, assistance with away-day travel, insurance and much more.

How else can I get fit and have fun?

We run an extensive programme of fitness classes with a variety of exercise, holistic and recreational sports including handball, pilates and boxfit. Our facilities are excellent and include gyms with state-of-the-art cardiovascular equipment (open from 8am until late and at weekends), a full-sized basketball court complete with scoreboard, a dance studio and a fitness studio. Our staff are always helpful and friendly, and will happily give you information on the classes and how to become a member.

There are also a number of excellent sporting facilities around London for you to use and parks where you can cycle, rollerblade, play baseball and even horse ride.

“Having this role has allowed me to open up my options and potentially turn a hobby and passion into a career.”

Sylvie Carlos, Event Management and Public Relations BA graduate and former Head of Station at Verve Radio

“I absolutely love Cheer. It has given me the opportunity to meet friends for life, keep fit and compete at a world-class venue. Performing at the Copperbox in the Olympic Park was the icing on the cake.”

**Brogan Blackburn,
Cheerleading Captain and
Sports Therapy BSc (Hons)
student**

What kind of student events do you run?

Our fantastic venue, The Rocket, hosts student events including club nights, gigs, freshers' and student society activities, movie nights, quizzes, comedy nights, karaoke and charity events. The Rocket serves great coffee and toasted panini, making it an ideal lunch spot and has a very affordable late bar. With Wi-Fi, pool tables, video gaming and a fantastic courtyard garden complete with ducks, it's a great place to chill out when you're not in lectures.

What can I do during freshers'?

There's a whole two weeks of special events for new students at The Rocket. A recent line-up included DJ competitions, circus skills workshops, tips on creating cocktails and mixing up mocktails, themed club nights, comedy, secret London advice from London Met pros and so much more. You can dive head-first into the social life at London Met and make friendships that will last throughout university and beyond.

What's the Students' Union and why should I join?

London Met Students' Union (London MetSU) is an independent, democratic organisation that's here to help and support you. It voices the views of our students on a range of issues relating to the University and the wider community. Each and every student is automatically a member of the Students' Union and everyone has the opportunity to stand and be elected. So if you're keen to gain experience of working for a large and influential organisation, or would like to help make key decisions about the University, getting involved with the Union is a great way to do it. The Students' Union is also the place to go for student societies, sports teams, social events, NUS cards (student discounts!), discounts on travel, setting up campaigns and independent advice on a range of academic issues.

Where can I find out more about joining a sports team and the Students' Union?

londonmet.ac.uk/sports
londonmetsu.org.uk

“Most of my socialising comes from a society that I am the president of. I run GTSF, the Games, Tabletop, Sci-fi and Fantasy society. We have over 300 members and run events which I organise about once a month.”

Winter Milek,
 Games Modelling, Animation
 and Effects BSc (Hons) student

**Can you tell
me about
fees and
funding?**

How much are tuition fees?

Tuition fees for university courses are currently subject to government approval under the Teaching Excellence Framework (TEF). This means that the annual tuition fee for students enrolling in autumn 2018 may not be finalised until spring 2018.

We expect our tuition fee will be around £9,500 per year for both new and returning home and EU students studying in 2018–19. Fees for returning students may change each year by an amount also set under the government's regulation.

EU student fees may be subject to change depending on the future of the UK's membership of the European Union.

For more information about potential course fee changes, please visit: londonmet.ac.uk/coursefeechanges

You'll also be able to find individual course fees, including course fees for international students, on our online course pages: londonmet.ac.uk/courses

For London Met courses based at our partner institutions, please check the fees with the college. These include:

- Hackney Community College
- City and Islington College
- Lambeth College
- Montessori Centre International

Can I afford to go to university?

Yes you can. And we can help you through:

Cash towards your studies

We currently offer a number of bursaries and course fee reductions to some of our students. For example, we currently provide financial help to some students who have a household income that is under £25,000 and who are eligible for a full Maintenance Loan.

Some universities will offer you free books or a tablet, but here at London Met you could get cash towards your studies, so you can make those all-important spending decisions yourself.

We also provide financial support to some students who gain high assessment scores and to some students who have come from residential/foster care. This financial help is designed to help pay for expenses such as accommodation, books and childcare.

Like many universities, we regularly review our bursaries and course fee reductions so please check our website at londonmet.ac.uk/funding to see the latest information on the bursaries and fee reductions we're offering. You'll also find information on eligibility criteria and how to apply.

Can you help me earn while I learn?

Our Job Shop has a website where you can register and search online for hundreds of part-time, casual local jobs, including jobs here at London Met – and you might just add some valuable work experience to your CV at the same time. See page 12 for more details.

What about student loans?

Student Finance England currently offers funding to home and EU students. However, the availability of this funding to EU students may change depending on the UK's future membership of the EU.

At the time of publication, full-time home/EU students can apply to Student Finance England for a loan to cover their course tuition fees. Most full-time students will also be eligible to apply for a Maintenance Loan to help with living costs. A home/EU student studying part-time can currently apply for a tuition fee loan. Full-time students do not have to pay any of these loans back until they have finished their course and are earning £21,000 per year or more.

For more information and to apply online for student finance visit: gov.uk/apply-online-for-student-finance

Please note that EU students need to complete a paper-based form to apply for funding. This can be found at: gov.uk/student-finance-forms

For funding information for international students, visit: londonmet.ac.uk/internationalfunding

Are there any course-based bursaries?

Bursaries may be available for our Social Work courses through the NHS Business Services Authority. Please also check for the latest information at: nhsbsa.nhs.uk

Are there any grants I don't have to pay back?

Currently, you can also apply for extra grants that you don't have to pay back. These depend on your circumstances, and include a parents' learning allowance, a childcare grant (if you're bringing up children), a disabled students' allowance,

and an adult dependant's grant. Find out more at: gov.uk/studentfinance

Where can I get help and advice?

Our team of specialist advisers aim to make your time at university as affordable and stress-free as possible. You can come in and see us or check our website which has financial information, loads of tips and advice as well as online budget planners and downloadable fact sheets. You can also join one of our funding workshops, which are held around the time the Student Loans Company (SLC) begins accepting applications and are geared to help all UK and EU students with a London Met offer.

How do I pay?

All students need to pay half their annual tuition fees on their first day – if you have a student loan, your fees are paid directly by the Student Loans Company, you just need to show proof of this when you enrol. If you are paying your own tuition fees, then after you pay the first half, the rest can be paid in instalments up to three months after your course starts, either online or in person in a range of ways.

londonmet.ac.uk/payingyourfees

Is it worth it in the end?

UK government research shows the average lifetime income gain, after taxes, National Insurance, pension contributions and student loan repayments for a male graduate is £168,000, and for a female graduate is £252,000. So when you balance the cost of tuition fees against the higher employment and earning potential of having a degree, you can easily see how studying at university is a worthwhile investment.

What if I'm an international student?

We offer a welcoming and supportive environment situated in one of the world's greatest cities. Our international students come from all over the world, giving you the opportunity to meet people from a variety of different backgrounds.

Who's my first port of call?

If you need support during your time with us, our international advisers (located at our Islington campus) can provide valuable information and advice.

londonmet.ac.uk/international

Will you be visiting my home country?

We travel to countries across the world to meet applicants and alumni. Find out if we're coming to a city near you:

londonmet.ac.uk/meetus

What standard of English do I need?

In addition to academic requirements we normally expect students to have a recognised English language qualification. Depending on the programme you choose to study you'll probably need to have IELTS 6.0 (minimum), Pearson PTE 51 (minimum) or equivalent.

londonmet.ac.uk/englishrequirements

What if my English isn't good enough?

If you need to improve your English before studying a degree at London Met, we offer pre-sessional English courses that will help develop your reading, writing, speaking and listening skills. If you haven't quite met the English language requirements for your chosen degree course, our pre-sessional English courses could help you gain access: londonmet.ac.uk/englishlanguagecourses

What grades will I need?

We know that you may not have the same qualifications as those who have studied in the UK, so please be sure to check our country-specific entry requirements online. Here you'll be able to search for your home country and find out the grades you'll need. We recognise overseas academic qualifications with reference to UK NARIC (naric.org.uk), the national agency responsible for providing information on international qualifications.

londonmet.ac.uk/countryentryrequirements

How much will my degree cost?

To find out about how much your course will cost please check the fees and key information section on the relevant online course page: londonmet.ac.uk/courses

Can I get funding?

Details of the funding options available for EU and non-EU students can be found on our website:

londonmet.ac.uk/funding

“I have made friends for life and I have met students and staff who I really value. I will always appreciate their efforts to offer the best possible university experience anyone can have.”

Alexia Xanthaki,
Pharmaceutical Science
BSc (Hons) graduate, from Greece

How do I apply?

How you apply depends on the course, whether you're from within or outside the EU, when you want to start and whether you want to study part-time or full-time. Turn to page 164 or visit the relevant course page on our website for details. When applying, please remember to include copies of all supporting documents.
londonmet.ac.uk/courses

Can I come to London Met just for a semester?

If you're currently studying at undergraduate level outside the UK, you're welcome to apply to us for a semester as a visiting study abroad student. Studying in London has so many benefits (see pages 16 to 21 to find out more) and most importantly you'll be returning academic credit to your home university.
londonmet.ac.uk/studyabroad

What if I need advice about immigration?

Our international student advice team provides expert advice and guidance to all international students and specifically those applying for a Tier 4 student visa. The team can also advise on applications for applicable dependants, short-term study visas and working in the UK during and after your studies.
londonmet.ac.uk/internationaladvice

Can I work while I study?

Our careers office can help you find part-time work and support you with your long-term career planning through advice sessions, one-to-one meetings, access to a variety of job vacancy databases and more. Find out more on page 12.

What if I'm on a Tier 4 visa?

If you're an international student on a Tier 4 (General) Student visa and you're studying at or above degree level with us, you'll be allowed to work up to 20 hours per week during term-time and full-time during holidays.

Where will I live?

Living in London is a fantastic experience and there are many exciting areas where you can live. Our Accommodation Bureau can offer you advice on finding a place to stay during your studies. External halls of residence, homestays and private rented accommodation are often popular choices. For more details turn to page 38 or visit our website:
londonmet.ac.uk/accommodation

What's it like living in London?

From iconic landmarks and world-class theatre to local markets and green open spaces, London has a wealth of experiences to offer. If you're worried about the expense of living and studying in London, fear not, there are plenty of ways to make the most of this wonderful city, even on a student budget. Follow us on Twitter, Facebook and Instagram to find out about all the things you can do in this incredible city. Plus, find out about some of the best bits from page 16.

“I would advise anyone thinking of studying in the UK to go for it, I truly believe it will help your career and expand your knowledge and horizons.”

Tomoharu Takeyama, London Met graduate, from Japan

93% of our students are in work or further study within six months

Destinations of Leavers from Higher Education survey 2014–15

**Where
will I live?**

There are a number of factors to consider when looking for somewhere to live. Do you want to be close to campus? Are you looking for independence or a supportive homely environment? Is there a particular area you like? How much are you able to spend?

It may seem overwhelming but our Accommodation Bureau is on hand to help you find somewhere affordable and comfortable to live. Think about what you're looking for and take your time to explore the options.

Can I live somewhere that will give me independence?

Halls of residence and private rented accommodation are two of the best options if you're looking for independence. Halls of residence are perfect for meeting fellow students, but if you already have a few friends you want to live with – or don't mind whether or not you live with students – private rented accommodation can be a great alternative.

Can I live within walking distance of campus?

Our students have access to halls of residence that are conveniently located right by our campuses. They include:

Stapleton House

How far?

It's just across the road from our Tower Building in Islington.

What facilities?

Ensuite room, a common room with free use of a pool table, a large courtyard for events and socials, and more.

How much?

From around £199* per week (bills included).

Paul Street East

How far?

0.4 miles from our Moorgate campus.

What facilities?

Four-bed flats (with kitchen, spacious dining area and shower) and studio flats (with kitchenette and ensuite shower room) available.

How much?

From around £275* per person, per week for four-bed flats / £295* per week for studios.

Pacific Court

How far?

0.7 miles from our Aldgate campus.

What facilities?

Ensuite rooms or studios, common room with pool table, and bike storage.

How much?

From £200* per week for ensuites / £298* per week for studios.

*Prices may be subject to change from year to year.

What are the cheapest options?

It's often cheaper if you're willing to share a room with other students. Some halls of residence that offer sharing options are:

Helen Graham House

How much?

Twin rooms from around £120.51* / single rooms from £184.86* (prices are per person, per week).

International Student House

How much?

Quad rooms from £79.80* / triple rooms from £100.10* / twin rooms from £126.35* / single rooms from £185.85* (prices are per person, per week based on a 41-week contract).

Can you help me find private accommodation?

If you're looking to rent a flat, either through a letting agent or directly through the landlord, you can look for properties, get information on rental contracts and find advice on viewings and deposits by visiting our website and registering on our database: londonmetstudentpad.co.uk

Don't forget, if you opt for private accommodation, you'll need to budget for bills including water, electricity, gas, TV licence and contents insurance.

What if I'm only staying for a semester – or less?

There are several halls that offer single semester contracts and more flexible contract lengths. For those of you looking for short-stay accommodation, we can also provide information on hotels, hostels, bed and breakfasts, and short-stay private accommodation.

I'm new to London – is there anywhere I can live that will feel like home?

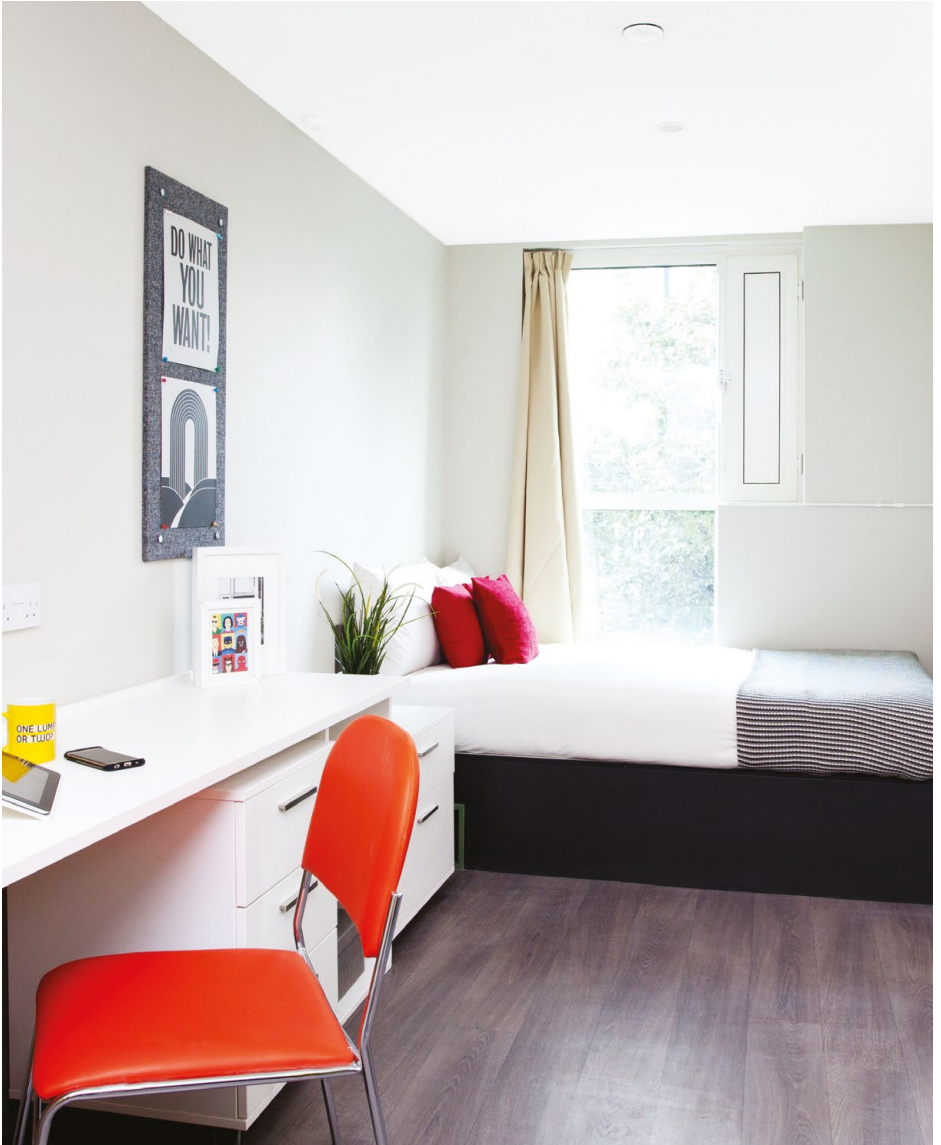

If you're after a more supportive environment or you're an international student looking to improve your English language skills, you could opt for a homestay, where you're placed with a British family.

Where can I go for more information?

For more information on halls of residence, private rented accommodation and all the other accommodation options visit: londonmet.ac.uk/accommodation

*Prices may be subject to change from year to year.

**What
support
will I have
access to?**

We pride ourselves on helping our students achieve their potential. From first-rate study areas and impressive social spaces to award-winning student support services, we'll ensure you get the most you possibly can out of your university experience.

What support will I get?

Our student services team is accredited by Matrix and has been awarded the Buttle Quality Mark for Care Leavers, so we can confidently say you'll be in safe hands at London Met. Our experienced and professional staff can provide help through one-to-one meetings as well as over the phone, via email and through social media. We also run events on a range of topics and have a variety of online resources, printed information and self-help materials available to you. Skype calls can also be arranged on request.

What if I have a disability?

Our Disabilities and Dyslexia Service (DDS) offers support to students with disabilities or Specific Learning Differences (SpLDs) such as dyslexia or dyspraxia, physical or sensory disabilities and long-term medical conditions including mental health challenges. We offer:

- advice to students who believe they may have a Specific Learning Difference
- dyslexia screenings
- advice on recommendations for reasonable adjustments in line with the Equality Act (2010) to ensure that students can participate as fully as possible in academic life at London Met
- guidance on the funding available to disabled students, such as Disabled Students' Allowances (DSA)

londonmet.ac.uk/disabilities

Will I be able to see a counsellor?

Everyone needs support from time to time and it's best to seek support before a situation becomes too problematic. Our professional counsellors offer confidential counselling on a wide range of emotional difficulties including relationships, sexuality, depression and anxiety, study problems, cultural issues and family concerns. You can also meet with a counsellor to discuss how to maximise your personal and academic potential. We run workshops on a variety of issues including motivation, goal setting, mindfulness, meditation, maximising your learning style, increasing your emotional intelligence (EQ) and other transferable skills. The counselling service also offers a distance learning programme on personal development and emotional intelligence.

londonmet.ac.uk/counselling

Can I get funding advice?

You'll find information about funding and how we can help from page 30.

Can I get help with my funding or UCAS applications?

If you're struggling with your student finance or UCAS applications, you can come along to one of our workshops and we can help you understand what you need to do in order to apply:

londonmet.ac.uk/workshops

What about careers advice?

We have a dedicated team ready to help you fulfil your career ambitions. You'll find all you need to know about our careers service from page 12.

Can I join the Students' Union?

As a London Met student you automatically become a member of the Students' Union. The Students' Union can support you if you're facing issues with your academic work and need advice and information. The SU is also the place to go to get your NUS extra card (it opens up a whole world of amazing discounts!), join sports clubs and student societies, and receive discounts on travel around London and the rest of the country. Find out more from page 26 or visit: londonmetsu.org.uk

Who do I contact if I need international advice?

Turn to page 34 for our information for international students and how to contact our international advisers.

Once I've started, where would I go for help?

Our student hubs are designed to help you with any questions you may have, for example about your timetable, modules, exam results and enrolment. You can also access and book appointments with a wealth of other support services offered at the University such as student services, finance, learning support services and academic services.

Can I get something to eat and drink on campus?

When you get a bit peckish or fancy a break, there are plenty of places to get food and drink on our campuses. You can hit the breakfast bar, hunt down a hot panini or grab a snack and go at The Junction, or pick up a high street coffee for less at one of our on-campus cafés.

What if I fancy a breath of fresh air?

We may be in the centre of a big city but, within the University, there are a number of areas where you can enjoy the beautiful outdoors. Our Islington campus has a courtyard where you can sit and chat with friends, relax in a deck chair or play a little table tennis. We even have our fair share of wildlife. As well as housing 40,000 bees on our roof, we have the biggest pond outside of a park in Islington, where ducks – and, in the spring, ducklings – can be found enjoying their time at London Met. Green fingered students can also enjoy a spot of gardening on one of our roof gardens.

Where's best to meet my friends?

In addition to our cafés and eateries, our student bar, The Rocket, is a great place to meet your friends and relax between lectures. With Wi-Fi, pool tables, video gaming, board games and an outdoor courtyard, our café bar is ideal for catching up on work, chilling, socialising and partying. It's open from 11am on weekdays with friendly staff, comfy sofas, amazing coffee, toasted panini and snacks available all day. The Rocket also hosts events throughout the year including a variety of gigs, club nights and end-of-term parties. Stay up to date on Facebook and Twitter:

 [/londonmetevents](https://www.facebook.com/londonmetevents)
 [@LondonMetEvents](https://twitter.com/LondonMetEvents)

Can I get discounts on campus?

We offer discounts on campus in the form of our MetCard and MetCard App. MetCard gives you exclusive discounts on food and drink, and entry to events at London Met – and it's totally free!

What if I want to keep fit?

The University's sporting facilities include a sports hall capable of hosting international basketball matches, a multi-gym, dance studios and a popular programme of classes, from spinning to parkour, so there really is something for everyone. Membership for students is priced very competitively and includes access to the gym and all exercise classes.

londonmet.ac.uk/sports

[@LDNMetGym](https://twitter.com/LDNMetGym)

What facilities are relevant to my subject area?

You can find out about our subject-specific facilities in our courses section from pages 48 to 163.

Where can I study?

Our library service provides a wide range of up-to-date information and resources, as well as silent learning zones, bookable group study rooms and comfy informal spaces where students can meet and study collaboratively. There are open access networked PCs as well as printing and copying facilities. To save you time, there are a number of self-service facilities for borrowing and returning items, renewals and reservations. Our electronic resources include e-journals, e-books and databases, accessible outside the University 24 hours a day via our easy-to-use web-based catalogue.

We also have self-service laptop loan lockers that allow you to borrow a Chromebook and take it to lectures, or perhaps a nearby café or your favourite study spot.

Library Services is a member of the Society of College, National and University Libraries (SCONUL Access). This membership gives our students the opportunity to access many other university libraries that also belong to the scheme. For further information visit:

sconul.ac.uk/sconul-access

Does the library have any special collections?

The University has several special collections including the University Archive, which houses unique historical material, the Frederick Parker collection of historic chairs and company archive, and the Trades Union Congress Library Collections, which is the major research library for the study of all aspects of trade unions and collective bargaining with both historical and contemporary coverage.

What if I need help with the library?

We're here to help you succeed in your studies and our information desks have friendly and helpful staff to respond to your queries about using our resources and facilities. You can also email or use our online chat to get in touch. Our academic liaison librarians are qualified to provide learning support and information skills training, and ensure that the appropriate information resources you need are available throughout your course. Your dedicated librarian can help you acquire valuable information literacy skills that will enable you to locate, retrieve, evaluate and use the most relevant resources for your research for specific assignments and projects. We publish guides and online tutorials about resources specific to your subject area, which are a good starting point when you need support.

What if I need a projector or other media equipment?

If you're giving a presentation, many of our rooms are fitted with a PC, DVD player, projector and sound system. You can also borrow portable and mobile equipment such as specialist cameras and sound recording equipment, and there's technical support available if you need it.

Where can I save my work?

Each London Met student is given a Google Apps account and 5GB of cloud storage, which is accessible anywhere on and off-campus. Your Google Apps suite also includes the use of Google Docs, allowing you to collaborate with other students and work on shared documents.

“The staff were always helpful and the facilities were excellent.”

LLB Law student

**What
courses do
you offer?**

We offer a wide range of undergraduate degrees across an array of disciplines. In this section you'll be able to find out a bit about each course, the modules you're likely to study, the grades you'll need and other key information such as fees and course duration.

Please note, while we've listed entry requirements for each of our courses, we still welcome applications from mature students with relevant professional experience.

-  Extended degree (including a foundation year)

*Please note that fees and course details may be subject to change and details published should be taken as indicative only. The published fees for all London Met courses are currently subject to government approval. The typical fee of £9,500 per year is for home and EU students and is subject to government approval under the Teaching Excellence Framework (TEF). EU student fees may be subject to change depending on the future of the UK's membership of the European Union. All course fees are subject to an annual review. Visit londonmet.ac.uk/coursefeechanges for the most up to date information.

More detailed information about all our courses can be found on our website:

londonmet.ac.uk/courses

Art, architecture and design (The Cass)

Why should I study an art, architecture or design course here?

Our art, architecture and design courses are internationally recognised for their high quality teaching, excellent facilities and unique interdisciplinary opportunities.

What sets The Cass apart from other art schools?

Taught by renowned artists, cutting-edge designers and professional practitioners from some of London's most exciting architectural practices, you'll have the chance to work in studio environments on live client projects happening both locally and in countries including Japan, Sierra Leone, China and Iran. Many students and graduates have exhibited internationally and have won prestigious awards.

Our English and performing arts students benefit from the experience of published writers and theatre professionals making an impact on the international stage.

The Cass was included in *DOMUS Magazine's* Top 100 Architecture and Design Schools in Europe 2017.

How do you bring employability into your courses?

Learning through practice, playing with process and working with clients, you'll gain real-world experience in both individual and collaborative projects, engaging with professionals, communities and companies. We also focus on providing you with key employability skills so that you're work-ready as well as creatively engaged through events such as Making a Living, our annual festival of employability and entrepreneurship.

What facilities are there?

We provide inspiring studio spaces and workshops where you can innovate and create. You'll enjoy purpose-built teaching spaces for art, architecture and design, and access to specialist facilities including wood, metal, plastic and ceramics workshops, fashion and textile studios, printmaking and letterpress facilities, a photography studio and darkrooms, and contemporary media production and digital manufacturing technologies.

What kind of people are involved with The Cass?

Artists, designers and creative professionals such as Patrick Brill (Bob and Roberta Smith), who was awarded an OBE in the 2017 New Year's Honours List,

“The great thing about The Cass is that it actively encourages live projects with established and prestigious companies.”

Tim Summers, 2016 Furniture and Product Design BA (Hons) graduate

Angharad Rees, Editor of *Grafik Magazine*, Jerwood Applied Arts winner Simone Ten Hompel, and photographer Spencer Rowell, co-founder of Uncertain States all teach at The Cass. Architecture studios and units are led by leading architects and practices including Cottrell & Vermeulen (Building Design Architects of the Year 2016), Feilden Fowles (Building Design Young Architects of The Year 2016) and Peter St John (RIBA Stirling Prize 2016).

Can you give me some statistics?

96% of graduates from The Cass were in work or further study six months after graduation according to the 2014–15 Destinations of Leavers from Higher Education (DLHE) survey. The Cass also received a record score of 88% in the 2016 National Student Survey including high scores for the Textile Design BA (100%) and Fine Art BA (97%).

What subject areas can I choose from?

Design: page 57

English and performing arts: page 63

ED Art and Design Extended Degree (with Foundation Year) BA (Hons)

This extended degree includes an intensive foundation year (Year 0), which will allow you to progress on to one of our art or design undergraduate degree courses at The Cass. It is both preparatory and diagnostic, meaning you'll gain the skills required for your subsequent three years of study as well as giving you the opportunity to explore a number of different directions before choosing your specialism at the end of the year.

Example Year 0 modules

- Critical and Contextual Studies: Foundation
- Project
- Techniques
- Workbook

Entry requirements

- at least one A level or a minimum of 48 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- English GCSE at grade C (grade 4 from 2017) or above (or equivalent)

 September/January

 Four years

 Eight years

 Home/EU: £9,500 (subject to government approval – see page 49 for further details)

londonmet.ac.uk/W000
UCAS code: W000

ED Film, Photography and Media Extended Degree (with Foundation Year) BA (Hons)

This extended degree includes an intensive foundation year (Year 0), which will allow you to progress on to one of our film, photography or media undergraduate degree courses. It is both preparatory and diagnostic, meaning you'll gain the skills required for your subsequent three years of study as well as giving you the opportunity to explore a number of different directions before choosing your specialism at the end of the year.

Example Year 0 modules

- Critical and Contextual Studies: Foundation
- Project
- Techniques
- Workbook

Entry requirements

- at least one A level or a minimum of 48 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)

“The course encouraged my creativity and confidence, and I feel ready to launch into a professional environment.”

 September/January

Interior Architecture and Design BA (Hons)

Interior architecture is a rigorous practice that requires you to think about how we occupy complex spaces. You'll develop skills in observational, spatial and computer drawing, model making, and technological and material investigation. In the 2014–15 Destinations of Leavers from Higher Education (DLHE) survey, 100% of graduates from this course were in work or further study within six months.

Example Year 1 modules

- Critical and Contextual Studies 1 (Interiors)
- Design Project 1.2
- Design Skills 1.1
- Interior Materials and Technologies

Entry requirements

- a minimum of grades BBC in three A levels from relevant subjects, eg arts, humanities or social sciences, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)
- a portfolio review – see page 167
- see online course page for full requirements

A woman with blonde hair tied up, wearing a black and white striped shirt, is smiling as she works on a chair. The chair is covered in a vibrant, multi-colored pattern made from newspaper clippings. In the foreground, another person's hands are visible, wearing a colorful patterned sleeve and a black wristband, also working on the chair. The background shows a workshop environment with various materials and tools.

“The projects opened my eyes to new ways of working and understanding the importance of storytelling through chairs. After graduating, I secured an internship with Lee Broom and had the opportunity to spend one or two days a week in his studio.”

ED Fashion and Textiles Extended Degree (with Foundation Year) BA (Hons)

This extended degree includes an intensive foundation year (Year 0), which will allow you to progress on to one of our fashion or textiles undergraduate degree courses at The Cass. It is both preparatory and diagnostic, meaning you'll gain the skills required for your subsequent three years of study as well as giving you the opportunity to explore a number of different directions before choosing your specialism at the end of the year.

Example Year 0 modules

- Critical and Contextual Studies: Foundation
- Project
- Techniques
- Workbook

Entry requirements

- at least one A level, or 48 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)
- a portfolio review – see page 167

Design Studio Practice BA (Hons)

This degree explores the rich cross-disciplinary territory where design encompasses art, product design, installation, interior design, visual communication and other fields of creative practice in material culture that engage with the making of artefacts. The course is intended for those who are passionate about design but who don't want to be narrowly identified as a product designer, fine artist or graphic designer.

Example Year 1 modules

- 3D Design Principles
- 3D Visual Research and Communication
- Critical and Contextual Studies 1
- Workshop Practice

Entry requirements

- a minimum of grades BBC in three A levels in relevant art and design, art history or design and technology subjects, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)
- a portfolio review – see page 167

“I took so much from my time at The Cass. The lecturers are incredibly engaged, the weeks are very focused and the studio sizes are fantastic. This is something which I know is lacking at a lot of other art schools.”

Samuel Eyles, Fine Art BA (Hons) graduate and artist recently featured in *The Guardian*

Business, law and languages

Why should I study a business, law or language course here?

We offer a dynamic and relevant portfolio of challenging business, management, legal, finance and languages courses that equip you with the knowledge to accelerate your professional career. Expert lecturers, industry consultants and researchers support all of our undergraduate programmes.

As well as being an official partner institution of the Chartered Management Institute, many of our courses are accredited by leading professional bodies including:

- The Association of Chartered Certified Accountants
- The Chartered Institute of Procurement and Supply
- The Chartered Institute of Personnel and Development
- The Law Society
- The Bar Council

Can you give me some statistics?

We're proud of our National Student Survey (NSS) scores, which have seen several courses receive 100% overall satisfaction including Banking and Finance, Law (with International Relations), and Tourism and Travel Management.

Where are your graduates working?

Our graduates work for organisations including Adidas, Asos, Deloitte UK, J P Morgan, London City Hall, the Serious Fraud Office, Coca Cola, Google, Thomson Reuters, the Law Society, Whistles, PricewaterhouseCoopers and the Ministry of Justice to name a few. From financial data analysts, marketing coordinators and investment managers to project managers and paralegal advisers, you'll find our graduates working in key positions, as our degrees focus firmly on preparing you for the working world.

What facilities are there?

Complete with a dock, witness box and public gallery, our mock courtroom will help law students get to grips with the courtroom environment and aid their presentation skills. For business students, our Bloomberg information terminals give you access to a huge database of company information, news, real-time financial instrument prices and valuation analytics. You'll also have access to Bankscope, one of the world's most important banking information sources.

Do you have industry links and work placement opportunities?

We place great emphasis on developing the employability of our graduates and our connections with many organisations, both nationally and internationally, and help students secure high-calibre work placements.

We also maintain links with around 100 leading business and law icons serving as visiting professors who engage directly with students on work-based projects, talent management, work shadowing and internships. These have included founder and chairman of Cobra Beer, Lord Bilimoria CBE, and Sir David Wootton, partner of law firm Allen & Overy and a former Lord Mayor of London. Our alumni include former Chief Executive of Whistles, Jane Shepherdson CBE, and Sadiq Khan, the current mayor of London.

What subject areas can I choose from?

Accounting, economics and finance:

Computing and digital media

Why should I study a computing or digital media course here?

London Met offers cutting-edge academic and professional qualifications in subjects including computing, creative technologies, journalism, mathematics and electronics. Graduates of our computing and digital media degrees have gone on to have successful careers as graphic designers, network and software engineers, journalists, analysts and university lecturers. They've worked for companies such as the BBC, Cisco, Vodaphone and *The Independent*.

Who will be teaching me?

Teaching is delivered by a team of dedicated and highly qualified lecturers with a wealth of industry experience. London Met has also been recognised by leading technology company Cisco for providing the best delivery of the Cisco Certified Network Professional (CCNP) curriculum in Europe. In addition to the University's own team of experienced academics, students have access to guest speakers through regular events and workshops. In the past we've welcomed experts from companies including Microsoft, Cisco, Apple, O2 and Blackberry, as well as leading newsreaders George Alagiah, Jon Snow and Krishnan Guru Murthy.

What facilities will I have access to?

Our IT and computing students benefit from some of the most advanced Cisco labs in London. Students on our digital media degrees can also take advantage of our £100,000 journalism newsroom, which was opened by former editor of *The Guardian*, Alan Rusbridger. This state-of-the-art facility includes 40 computers equipped with the latest design software, large screen TVs and a mobile TriCaster that allows students to host outside radio and TV broadcasts while streaming live footage to the internet.

Will I have work experience opportunities?

Our WOW (World of Work) Agency places top students and graduates into client-driven, paid-for projects such as developing new websites and animations, providing our students with valuable experience to build their careers. Clients have included EMI (Mute) Records, Comic Relief and The Times Online. Every undergraduate student at London Met is guaranteed a work-related learning opportunity that can count towards their course.

What subject areas can I choose from?

Business Information Technology BSc (Hons)

With professional accreditation from the British Computer Society, this career-focused course will equip you with the key skills necessary to progress in the fast-growing business IT market. You'll cover a broad range of subjects, from cloud security and database development to computer hardware. You can also choose to undertake a work placement as part of your degree, giving you valuable experience that you can take with you into the working world. Please note, this course is also taught at our partner institution, the British Institute of Technology, England (BITE) in Forest Gate.

Example Year 1 modules

- Computer Hardware and Software Architectures
- Information Systems
- Logic and Problem Solving
- Visual Programming

Entry requirements

- a minimum of grades CCD in three A levels, one of which should come from a relevant subject, or 88 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Computer Games Programming BSc (Hons)

This course was developed in consultation with our industry steering group and organisations such as Creative Skillset. As well as learning how to use the latest programming languages and software to program high-quality, original games for PCs, consoles and mobile devices, you'll have opportunities to collaborate with illustrators, artists and 3D modellers. You're also encouraged to enter competitions and public gaming events, and we host an annual Summer Showcase where you'll get to show your work to industry leaders and recruitment agencies.

Example Year 1 modules

- Computer Gaming Hardware Architectures
- Game Design
- Game Portfolio 1
- Logic and Mathematical Techniques

Entry requirements

- a minimum of grades CCC in three A levels with at least one in a relevant subject, or 96 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Media with Languages BA (Hons)

This course is designed to give you outstanding experience and understanding of the media industries as well as hands-on experience of video production, television production and photographic work. You'll have the choice to study Arabic, French, Spanish or a combination of languages. You'll be equipped with the practical knowledge and insight to forge your career in the media or media related roles.

Example Year 1 modules

- Language Module (Arabic, French or Spanish)
- Media Genres
- Media Histories
- Moving Image and Sound Practice

Entry requirements

- a minimum of grades BBC in three A levels, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Media, Communications and Journalism BSc (Hons)

Taught by experts in their field and focusing on a wide range of theoretical and contemporary subjects, this course provides you with a broad understanding of the role of media, communications and journalism nationally and internationally. Work opportunities are also available. In the 2014–15 Destinations of Leavers from Higher Education (DLHE) survey, 100% of graduates from this course were in work or further study within six months.

Example Year 1 modules

- Media Genres
- Media History
- Practical Journalism
- Writing Skills

Entry requirements

- a minimum of grades BBC in three A levels, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)
- the submission of a 200-word original piece of writing on a recent local event

“In our final year we have a work placement and a final project that often takes the form of a paid internship in our field. Even for first and second years there are a lot of opportunities. In my first year I was invited to three different games competitions, which led to some invaluable networking.”

Winter Milek, Games Modelling, Animation and Effects BSc (Hons) graduate

Human sciences

Why should I study a human sciences course here?

We offer a wide range of courses in subjects including biomedical sciences, pharmaceutical sciences, nutrition and dietetics, and sports science and therapy. Students have access to an impressive range of specialist facilities as well as support from experienced, highly qualified and enthusiastic academics. Graduates of our human sciences degrees have gone on to work for companies such as the NHS, the Nutrition Society, Arsenal and Chelsea Football Clubs, and GlaxoSmithKline, working as consultant nutritionists, sports therapists, lab researchers, food technologists, microbiology technicians, biotechnologists and more.

What facilities will I have access to?

One of London Met's greatest assets is our £30 million Science Centre, which features a superlab with more than 280 workstations and is one of the largest and most advanced science teaching facilities in Europe. It also houses specialist laboratories for tissue culture research and microbiology, a nuclear magnetic resonance room, a Category 3 laboratory suite for research on airborne or transferable viruses, and nutritional physiology and food technology labs. Students studying sport-related subjects can benefit from London Met's sports therapy clinic and fitness assessment centre, both of which are found within this impressive £30 million facility.

What links do you have to scientific organisations?

Many of our human sciences courses are accredited by professional bodies. These include the Association for Nutrition (AfN), the British Dietetic Association, the Institute of Biomedical Science (IBMS) and the Institute of Food Science and Technology (IFST).

What research opportunities are there?

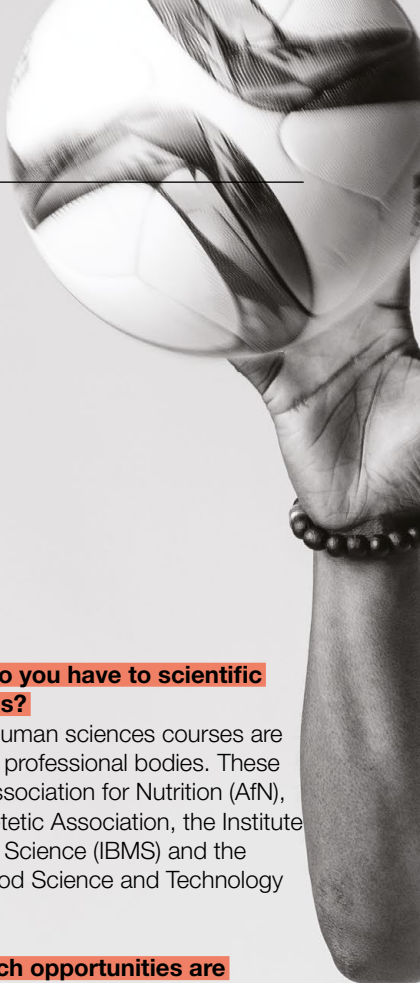

London Met is home to a vibrant research community, which investigates and addresses important scientific challenges. We have also established a number of research centres and groups, including the Lipidomics and Nutrition Research Centre, the Molecular Systems for Health Research Group, and the Public Health Nutrition and Food Microbiology Research Group.

What subject areas can I choose from?

Biosciences: page 112

Health sciences: page 120

Chemical and pharmaceutical sciences: page 127

ED Biochemistry Extended Degree BSc (Hons)

This four-year course includes a foundation year (Year 0), providing an alternative route into higher education if you don't have the traditional qualifications or can't meet the entry requirements for an undergraduate degree in biochemistry. You'll gain an excellent working knowledge of biological molecules and information transfer and processing in living systems and metabolic processes.

Example Year 0 modules

- Biochemistry
- Biology
- Chemistry
- Scientific Studies

Entry requirements

- at least one A level, or a minimum of 32 UCAS points from an equivalent Level 3 qualification – see page 169 for more details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent) – applicants who meet the UCAS points criteria but obtained a D (grade 3 from 2017) in GCSE English and/or Maths may be offered a University test in these areas

Personal Training with Strength and Conditioning (Top-up) BSc (Hons)

Take advantage of the growing field of athletic development and gain practical skills underpinned by scientific knowledge. If you want to be a personal trainer, strength and conditioning coach or applied sports scientist, or if you're already working in the industry and would like a qualification that can take your career to the next level, this course is for you. This course is taught at our partner institution, City and Islington College.

Example modules

- Applied Strength and Conditioning
- Industry Experience
- Research Project
- Technical Analysis of Strength and Conditioning

Entry requirements

- a foundation degree, Higher National Diploma or equivalent in a sports science-related subject
- English and Maths GCSE at grade C (grade 4 from 2017) or above (or equivalent)

CLEAN

“The facilities were really excellent – there was everything there you needed to make the connection between lectures and practical work. There were bod pods and tanita scales for body fat analysis for example, which is what is used within the nutrition research industry.”

Dietetics and Nutrition BSc (Hons) graduate

Physical Education and Coaching (Top-up) BSc (Hons)

This degree is ideal if you're interested in sports science and would like to be a PE teacher or sports coach. You'll develop your practical coaching skills and experience through work placements in schools, colleges or sports club environments. You'll learn from an experienced course team with expertise in many aspects of physical education and sports coaching, working in a multi-purpose sports hall, sports science gym and on an AstroTurf pitch. The course is taught at our partner institution, City and Islington College.

Example modules

- Analysis of Sports Performance
- Applied Theory and Practice of Teaching and Coaching
- Research Project
- Vocational Teaching and Coaching

Entry requirements

- a foundation degree or Higher National Diploma (or equivalent) in physical education, coaching or sports science related subjects
- a Level 1 sports governing body coaching qualification
- a clean Disclosure and Barring Service (DBS) record (formally CRB)
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

 September

Physical Education and Football Coaching with Arsenal in the Community FdSc

This course will teach you the key elements of physical education and community sports coaching, with a particular emphasis on football coaching. There are opportunities to develop practical coaching skills and experience through work placements in partnership with Arsenal in the Community. You'll also develop an understanding of the requirements of working with the educational and sports coaching sectors and gain valuable experience of coaching sport within schools. The course is taught at our partner institution, City and Islington College.

Example modules

- Academic Skills
- Anatomy and Physiology for Sport and Exercise
- Community Football Coaching 1 (with Arsenal FC)
- Psychology
- Strength and Conditioning for Sport

Entry requirements

- a minimum of grades CC in two A levels including Biology, Physical Education or Human Biology or equivalent – see page 169 for details
- an FA Level 1 Football Coaching Award
- an enhanced Disclosure and Barring Service (DBS) clearance (formally CRB)
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Sport and Exercise Science BSc (Hons)

Sport and exercise sciences involve the provision of support services to elite athletes, the public and other sectors of the population such as the elderly and hospital patients. This course explores physiology, anatomy, metabolism and biomechanics while also covering sports psychology and sports sociology. In a growing industry with excellent and diverse employment opportunities, graduates can find roles in the fitness industry, coaching, sports therapy, exercise physiology, health promotion, clinical support and teaching.

Example Year 1 modules

- Biomechanics and Training Principles
- Practical Sport Experience
- Science, Research and Application
- Sport and Exercise Anatomy and Physiology

Entry requirements

- a minimum of grades BB in at least two A levels including Biology, Physical Education, Human Biology, Sports Science or Sports Studies, or 80 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Sport Psychology and Coaching BSc (Hons)

This course is ideal if you're looking to develop your practical coaching skills while learning about psychology in sports performance. You'll gain practical expertise, explore how sport and exercise can improve psychological health and wellbeing, and benefit from links to professionals working for organisations such as Arsenal FC. In the 2014–15 Destinations of Leavers from Higher Education (DLHE) survey, 100% of graduates from this course were in work or further study within six months.

Example Year 1 modules

- Essential Principles in Sports Science
- Practical Sport Experience
- Science, Research and Application
- Sports Anatomy and Physiology

Entry requirements

- a minimum of grades CCC in three A levels in Biology, Physical Education, Human Biology, Sports Science or Sports Studies subjects, or 96 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Sports and Dance Therapy BSc (Hons)

Developed in partnership with and accredited by the Society of Sports Therapists, this degree will provide you with the skills to treat and rehabilitate athletes and dancers following musculoskeletal injury or dysfunction. Our fully equipped sports therapy clinic will give you hands-on experience to complement your scientific learning. You'll have a number of career options, whether you want to be a dance company therapist, an injury prevention officer for dance schools or companies, or even run your own clinic.

Example Year 1 modules

- Essential Principles in Sports Science
- Practical Sport Experience
- Science, Research and Application
- Sports Anatomy and Physiology

Entry requirements

- a minimum of grades CCD in three A levels, or 88 UCAS points from an equivalent Level 3 qualification – see page 169 for details

Sports Science and Physical Education BSc (Hons)

Designed in collaboration with our education course team, this is the only course in London that combines sports science with PE, making it ideal for those wanting to progress on to a PGCE and become a PE teacher. You will study a broad spectrum of topics, including coaching theory, human biomechanics and sport psychology. You will also have the opportunity to develop your practical skills in our £30 million Science Centre and through an educational work placement at a local school.

Example Year 1 modules

- Essential Principles in Sports Science
- Practical Sport Experience
- Science, Research and Application
- Sports Anatomy and Physiology

Entry requirements

- a minimum of grades BB in at least two A levels including Biology, Physical Education, Human Biology, Sports Science or Sports Studies, or 80 UCAS points from an equivalent qualification – see page 169 for more details

“I would recommend London Met not only because of the great opportunities it offers its students but also because the lecturers are passionate and dedicated to forming the next generation of scientists.”

**Pharmacology BSc
(Hons) student**

“The facilities were great and there were lots of opportunities for work experience. I also enjoyed social nights at The Rocket, the sports days (I used to coach the ladies football team) and all the fantastic people I met. I really had the best time of my life at London Met. I still miss those days!”

**Sharon Heidari pour, Sports Therapy
BSc (Hons) graduate**

Social professions

Why should I study a social professions course here?

We offer theory and practice-based courses concerned with rapidly changing policy areas such as early childhood, community development, health, social work and youth work. London Met graduates studying in these fields have gone on to become teachers, social workers and charity workers, serving society by working for organisations such as the NHS, schools, housing associations and charities.

What are the advantages of studying here?

Taught by a dedicated body of staff with extensive practitioner experience, you'll be guided through carefully structured programmes designed to prepare you for a progressive career in these areas. Many of our courses are endorsed and accredited by professional bodies including the Health and Care Professions Council and the Institute of Healthcare Management.

What industry connections do you have?

We make the most of our London location by maintaining strong relationships with partner organisations and professional bodies. We work closely with a number of public service organisations including the Youth Justice Board, Skills for Health, the NHS, the Ministry of Justice and the Social Policy Association to develop bespoke training to meet our students' needs for specific management and leadership development skills.

London Met's Human Rights and Social Justice research institute is campaigning to seek justice for the forced disappearances and secret executions in Turkey and Iran.

Are lecturers involved in research?

Research undertaken by our academic staff is regularly published in industry journals, and staff often contribute to advisory groups, government policy and national television and radio programmes. Active research with an international focus underpins our courses and teaching is enriched by several significant centres of research associated with the University. Transforming lives and making a real impact on society, our research has been applied to innovative training projects, manuals for best practice, tailor-made short courses and executive training.

What subject areas can I choose from?

Education: page 134

Health, community and youth studies: page 139

“Those with children and other commitments are taken into consideration. The University and its staff have helped me a lot throughout my course.”

Early Childhood Studies
BA (Hons) student

ED Early Childhood Studies Extended Degree (including Foundation Year) BA (Hons)

This four-year course includes a foundation year (Year 0), which provides an alternative route into higher education for those who don't have traditional qualifications or can't meet the entry requirements for an undergraduate degree in early childhood studies. In addition to learning about the influence of society on childhood, you'll develop critical thinking and essay skills. It's an excellent way to get a taste of a range of social science subjects while gaining the skills needed for undergraduate study.

Example Year 0 modules

- Critical Thinking
- Culture, Family and Power
- Key Concepts in Early Childhood
- Media, Crime and Race

Entry requirements

- at least one A level, or a minimum of 40 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- significant work experience, knowledge and skills
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)

“If you are concerned about societal change, media moral panics and the effects this has on young people, this degree course is for you. Together we can provide additional support, advice and guidance to young people.”

Veronica Mason, Youth Studies BSc (Hons) course leader

Social sciences

Why should I study a social sciences course here?

London Met is home to a vibrant academic community covering subjects including criminology, policing, sociology, psychology, politics and international relations. We aim to demonstrate the relevance and usefulness of social science as a tool for affecting change in society. Our graduates have gone on to forge successful careers in organisations including the European Union, the United Nations, the Metropolitan Police, the civil service, the voluntary sector and housing associations.

Who will be teaching me?

Our lecturers contribute to real-world issues on a local, national and global scale. We're proud that our teaching and research, and in particular our ability to produce knowledgeable graduates, informs public debate about the issues important to people today. Our lecturers include experienced probation service professionals, senior police officers and world-leading researchers on feminist theory. In addition to our own academic experts, leading thinkers and prominent industry professionals regularly contribute to a lively schedule of events. Guests have included eminent feminist Mona Eltahawy. We've also delivered policy recommendations to Police Scotland.

Will I have work experience opportunities?

Like all our undergraduate students, you'll be guaranteed a work-related learning opportunity that can count towards your course. For example, on our Sociology BSc course, all students carry out research designs for real organisations and receive certification from employers to add to their CV.

Are lecturers involved in research?

We're home to a centre internationally recognised for its work researching all forms of violence against women, and on child abuse. The centre's staff act as

advisers to the British Council, providing information for policy makers, practitioners, survivors, supporters and activists. In other areas too we have important links with external agencies and real-world issues, from evaluating the police's use of body-worn cameras to providing mental health support overseas.

What facilities will I have access to?

Our students have access to a host of learning resources and IT facilities. Psychology students also have access to facilities including a psychophysiological lab with specialist physiological monitoring hardware and software, a health clinic with cameras for remote observation and a number of computing facilities

with specialist software. Our policing and security courses benefit from the John Grieve Centre for Policing and Community Safety, which has a vision to create a community of ideas and experience spanning students, academics, practitioners and policy-makers.

What subject areas can I choose from?

Criminology and policing: page 148

Politics and international relations:
page 153

Psychology, sociology and social policy:
page 160

“Studying at London Met has without a doubt been one of the most rewarding experiences of my life. The enthusiasm and commitment of the staff has been so encouraging and the cultural diversity of students has been an enormous inspiration.”

Diplomacy and International Relations BA (Hons) graduate

ED Criminology, Policing and Law Extended Degree (including Foundation Year) BSc (Hons)

If you're interested in a career addressing the causes of crime but don't have the necessary qualifications or entry requirements for an undergraduate course, this degree includes a foundation year that, on successful completion, allows you to progress on to one of our criminology or policing related degrees.

Example Year 0 modules

International Relations with Languages BA (Hons)

With this course you can specialise in two disciplines for a greater career choice and gain a range of highly transferable skills. Working with academics who are specialists in their field, you'll examine the major problems facing the international community today, including terrorism, the environment, international aid, nuclear proliferation, human rights, cyberwarfare and the complex relationships between states. You'll also have the choice to learn one or a combination of languages.

Example Year 1 modules

- Language Module (Arabic, French or Spanish)
- Introduction to International Development
- Introduction to International Relations
- Peace, Conflict and Diplomacy Since 1945

Entry requirements

- a minimum of grades CCC in three A levels or BC in two A levels in academic subjects, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)

International Relations with Spanish BA (Hons)

This course allows you to specialise in two disciplines, providing you with a greater career choice and a range of highly transferable skills. Working with academics who are specialists in their field, you'll examine major problems facing the international community today including terrorism, environmental change, international aid, nuclear proliferation, human rights, cyberwarfare and the complex relationships between states. You'll also learn Spanish to help you engage further with these political issues.

Example Year 1 modules

- Introduction to International Development
- Introduction to International Relations
- Peace, Conflict and Diplomacy Since 1945
- Spanish Language

Entry requirements

- a minimum of grades CCC in three A levels or BC in two A levels in academic subjects, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)

International Relations, Peace and Conflict Studies BA (Hons)

Help end conflict and bring about peace. This course teaches you about conflict issues including diplomacy, humanitarian crises and conflict resolution. Three students will also have the opportunity to attend Hiroshima City University's Hiroshima and Peace Summer School in Japan. In the 2014–15 Destinations of Leavers from Higher Education (DLHE) survey, 100% of graduates from this course were in work or further study within six months.

Example Year 1 modules

- Introduction to International Development
- Introduction to International Relations
- Peace, Conflict and Diplomacy Since 1945
- Politics and Government

Entry requirements

- a minimum of grades CCC in three A levels or BC in at least two A levels in academic or business subjects, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)

Can't meet the entry requirements? See our International Relations and Politics Extended Degree BA (Hons) on page 153.

Politics BA (Hons)

Examine the major issues and problems of politics today and explore decision makers and how policies are made at all levels. You'll be taught by experts in the field and, with links to many political institutions and organisations in London and beyond, you may find yourself undertaking placements with non-governmental organisations (NGOs), MPs or international organisations such as the United Nations and Amnesty International. There are also opportunities to specialise in areas including public policy, political theory and human rights or location-specific politics of Africa, the Middle East, China, Asia and the USA.

Example Year 1 modules

- Introduction to International Development
- Introduction to International Relations
- Peace, Conflict and Diplomacy Since 1945
- Politics and Government

Entry requirements

- a minimum of grades BBC in three A levels, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details

ED Psychology Extended Degree (including Foundation Year) BSc (Hons)

Accredited by the British Psychological Society (BPS) and the first step to becoming a Chartered Psychologist, this extended degree includes a foundation year (Year 0), which on successful completion will allow you to progress on to one of our psychology undergraduate degrees. You'll explore areas in psychology including cognition development, social and evolutionary psychology, and biopsychology. You'll also develop skills in data analysis, research methodology and ethics, essential in your final year where you'll develop your own psychological study.

Example Year 0 modules

- Being a Psychologist: Scientist and Practitioner
- Biology
- Key Studies that Shaped Psychology
- Scientific Studies

Entry requirements

- a minimum of grade C in at least one A level, or 32 UCAS points from an equivalent Level 3 qualification – see page 169 for more details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Psychology BSc (Hons)

Accredited by the British Psychological Society, this course provides the first step to becoming a Chartered Psychologist. Exploring genetics, biology, child development, personality, society and culture, you'll gain knowledge in research methodology and statistics, preparing you to conduct a psychological study in your third year. There are opportunities to specialise in areas of psychology including clinical, forensic, counselling, educational, health and occupational settings.

Example Year 1 modules

- Cognitive and Developmental Psychology
- Experimental Psychology and Research Methods
- Personality and Social Psychology
- Study Skills and Introductory Biopsychology

Entry requirements

- a minimum of grades BCC in three A levels or BC in two A levels, or 104 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Psychology and Sociology BSc (Hons)

This vocational course combines psychological and sociological insights, enabling you to better understand human behaviour and the different genetic, biological, individual, social and developmental factors that can influence it. You'll have the opportunity to specialise in areas including ethnicity, youth and occupational psychology. Our graduates go on to work in a number of different areas, including advertising, human resources, social work and research.

Example Year 1 modules

- Cognitive and Developmental Psychology
- Personality and Social Psychology
- Social Problems and Social Issues
- Sociological Imagination

Entry requirements

- a minimum of grades BCC in three A levels, or 104 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

Sociology BSc (Hons)

In one of the most culturally diverse and socially complex cities in the world, you'll be introduced to ideas on globalisation, social inequality, identity, ethnicity and race. As you prepare for a social and public policy career in the private, public or voluntary sectors, you'll learn skills to address multidisciplinary concerns relevant to a variety of public issues and have access to work-related learning and study abroad opportunities. By the end of the course you'll be qualified to apply sociological perspectives, concepts and research methods to the most challenging social issues facing us today.

Example Year 1 modules

- Researching Social Life
- Social Policy and Society
- Social Problems and Social Issues
- Sociological Imagination

Entry requirements

- a minimum of grades BBC in three A levels, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English at grade C (grade 4 from 2017) or above (or equivalent)

Sociology and Social Policy BA (Hons)

Social exclusion, racism and homelessness are just a few of the social problems we face today. This course prepares you for a career in policy and research in the public, private or voluntary sectors. In your third year you'll have access to work-related learning opportunities where you can take advantage of our established links with housing associations, campaigning groups, welfare agencies and local authorities. You'll graduate with improved career opportunities in central and local government, voluntary, charity and care agencies, pressure groups, research institutes and private companies.

Example Year 1 modules

- Researching Social Life
- Social Policy and Society
- Social Problems and Social Issues
- Sociological Imagination

Entry requirements

- a minimum of grades BBC in three A levels or BC in two A levels, or 112 UCAS points from an equivalent Level 3 qualification – see page 169 for details
- GCSE English and Maths at grade C (grade 4 from 2017) or above (or equivalent)

“Lecturers are always willing to talk and give advice, even out of office hours. They are so passionate! The support I received has made me confident and hopeful for a bright future in my chosen career. I feel equipped to leave this year and go out into the real world.”

**Criminology and Sociology BSc
(Hons) student**

“We visited Marylebone Road Magistrates Court to observe how hearings are presented. That was a really interesting first assignment on the criminal justice system. I also did some mentoring at HM Prison Holloway (the women’s prison), where I was finding ways to help women integrate back into society.”

Mafalda Guerra, Criminology BSc student

**How do I
apply?**

Applying to us is easy. Simply choose a course, check the entry requirements and follow the relevant instructions below. How you apply depends on the course, whether you're planning to start in September or January, and whether you'd like to study full-time or part-time.

How do I apply if I want to study full-time starting in September?

If you're from the UK or EU and want to study a full-time undergraduate or extended degree course starting in September, you'll need to apply via the University and Colleges Admissions Service (UCAS). You'll find the UCAS code for your chosen course at the bottom of each course listing in this prospectus. You'll also need a university UCAS code when going through the application process. Our code is L68. Your school or college may be able to help you with your application and any queries you have, but you can also book a place on one of our application workshops to get further help. Visit:

londonmet.ac.uk/workshops

What if I want to start in January?

A number of our courses give you the option to start in January rather than September – check your chosen course listing for details. If you want to start your degree in January you can apply directly to London Met. Please see “How do I apply directly to London Met?” (opposite).

What if I want to study part-time?

If you wish to study part-time (starting in either September or January), you also apply directly to London Met. Please see “How do I apply directly to London Met?” (opposite). Please note, if you require a Tier 4 visa you won't be able to study on a part-time basis.

I'm an international student. How do I apply?

Non-EU applicants applying to study full-time may choose to apply via UCAS or apply directly to the University. Non-EU applicants wanting to study part-time should, like all part-time applicants, apply directly to the University.

How do I apply directly to London Met?

To apply directly to us, follow these simple instructions:

1. Choose a course.
2. View the course information, including the entry requirements, and click on the “Apply direct” button.
3. Register your details with London Met and complete the online application form.

What information do I need in order to complete my online application?

When completing the application form, you'll need to have the following information at the ready:

- home address
- qualifications (including dates achieved, name and subject of qualification, and overall grades)
- employment history
- GCSE Maths and English qualifications (or equivalent)
- contact details for two referees, preferably email addresses

What documents do I need to provide?

When you're completing your application, you'll be given the option to upload copies of your qualifications, a CV and any other relevant documents. Please ensure that you've provided the correct email address, as we will send you a confirmation email when you have successfully completed the application process. We may also need to contact you by email when assessing your application. Once we receive your application we may ask to see copies of your qualifications. This is especially important when applying for credit from previous studies. If you're applying to us directly, you can assist us by uploading the copies with your application form.

What if my qualification documents aren't in English?

If your qualifications aren't in English, you may need to supply a translation of your documents. For advice on translation services please contact your embassy. Please remember to send copies of your qualifications, not the original documents. We will ask for original copies of your qualifications at enrolment only.

Will I need to include a personal statement?

As part of your application, you will be required to complete a detailed personal statement explaining your reasons for choosing the course and your interests in the area. We look for students who can demonstrate their enthusiasm, experience and passion for the subject.

When should I apply?

It's always best to apply as early as possible. Although we don't have a specific closing date for applications, places on our courses are offered on a first-come first-served basis. We therefore recommend that you submit your application as soon as possible to avoid disappointment. If you're applying for a full-time undergraduate or extended degree course starting in September, you should apply through UCAS before 30 June.

Can I apply after 30 June?

Yes, don't worry. If you're applying for a full-time undergraduate or extended degree course starting in September after 30 June, you can apply directly to London Met through our Clearing process. Details of how to apply via Clearing will be available on our website in the summer:

londonmet.ac.uk/clearing

How can I track my application...**... if I applied direct?**

You can view the progress of your direct application via our applicant portal. Details of this will be sent to you once we've received your application. We aim to make a decision within two to three working weeks of receipt of your application, although processing times may vary slightly depending on the time of year.

... if I applied via UCAS?

If you applied through UCAS, you can check the progress of your application and reply to offers via UCAS's tracking service, UCAS Track. We'll contact you via email to notify you of our decision. For courses that require an interview, application decisions may take a little longer, as will those for students seeking direct entry to the second or third year of an undergraduate course.

Will I need to attend an interview?

Wherever possible, we aim to make a decision based on the information provided on your application. However, you may be invited to attend an interview to discuss your application further with a tutor.

I'm looking to study an art-based subject. Do you need to see my work?

If you're applying for a course at our art, architecture and design school, The Cass, you're likely to be invited to a short interview (about 15 to 20 minutes) and asked to bring a portfolio of your work. To find out more about The Cass's interview process, visit:

londonmet.ac.uk/apply/thecass

How can I get in touch if I need help?

If you have any questions about applying to London Met, call or message us and we'll be happy to help.

+44 (0)20 7133 4200

londonmet.ac.uk/contact

Can I talk to someone in person?

If you're interested in talking to our tutors or current students, our open events are a great place to start. We also offer workshops where you can get help with your UCAS or funding applications. Visit londonmet.ac.uk/events for details. You can also pop into our course enquiries office on Holloway Road to talk to one of our friendly advisers.

What entry requirements will I need?

You'll find course-specific entry requirements on individual course listings (pages 48 to 163) – and in more detail on our online course pages. For most courses you'll need to hold a Level 3 qualification, meaning you'll need to have at least one of these combinations of qualifications (or equivalent):

- two GCE A level or Vocational A level passes
- three GCE A level or Vocational A level passes
- five passes in the Scottish Qualifications Certificate, of which two are at Higher grade or passes in four subjects, all of which are at Higher grade
- a pass in an Access course recognised by the Quality Assurance Agency for Higher Education (QAA) and designed to provide a preparation for higher education
- a pass in a foundation course in art and design validated by Edexcel
- the award of the Diploma of the International Baccalaureate
- a pass of 60% in the European Baccalaureate
- the Irish Leaving Certificate with passes at grade C or above in five subjects
- the award of an Edexcel QCF Diploma or Certificate

Visit the relevant online course page for specific subjects or grades you might need. You'll find the url at the bottom of each course listing in this prospectus. In some cases other qualifications certified by the admissions tutor as being of equivalent standard will also be accepted.

What GCSEs do I need?

In addition to the requirements opposite, we normally require three passes at GCSE (or equivalent) at grade C or above including English Language and, where required, Maths, or at grade 4 or above for applicants sitting GCSEs from 2017.

English isn't my first language. What level of English will I need?

To study at London Met you must be able to demonstrate proficiency in the English language. You'll need to have at least one of the following:

- a pass in English Language at GCSE at grade C or above
- Level 2/3 communications key skills
- IELTS test at band 6.0 or above with a minimum score of 5.5 in each component
- Academic Pearsons Test of English (PTE Academic) with a minimum score of 53
- a pass in the University's English/maths test
- an equivalent qualification as judged by the authorised admitting officer in accordance with the advice of the University's international advisers

I can't meet the entry requirements but I have relevant experience. Does that count?

If you have relevant professional qualifications or extensive professional experience you may be able to gain entry to your chosen course based on the skills and knowledge you've acquired prior to studying. Applicants with these types of qualifications or experience will usually be considered on a case-by-case basis.

Disclaimer

This edition of the undergraduate prospectus describes the facilities and courses which the University intends to offer during the 2018–19 academic year (that is, commencing in autumn 2018). Every effort has been made to ensure that the information contained in this prospectus is helpful, fair and accurate at the time of printing. However, this information is subject to change over time.

The University will take reasonable steps to provide the courses and services as described, however, the University cannot guarantee the provision of any course or facility. Some circumstances, such as staff changes and factors over which the University has no control, such as a change in the law or the level of demand for a particular programme or module (please note that this list is non-exhaustive), may result in the University having to withdraw or change aspects of the programmes, modules and/or student services detailed in the prospectus. Where circumstances demand an unavoidable change or where it is necessary for the University to discontinue a programme of study, the University will take reasonable steps to minimise the effect and all proposed changes will be notified promptly to those who have registered an interest in the relevant programme as well as being reflected on the course pages on the University's website (londonmet.ac.uk/courses). It is important that you check our website for the most up-to-date information. In addition, any changes between the prospectus and the proposed course and services will be notified to applicants at the time of making an offer.

If you have any particular concerns regarding any proposed changes, you must make the University aware of these as soon as possible.

Should you become a student at the University the teaching, assessment and other educational services will be described in the relevant course handbook and University regulations. Registration at the University and enrolment on a course will be subject to you complying with the University's registration procedure and your acceptance of the conditions of enrolment and the University's regulations (copies of which can be found at londonmet.ac.uk/regulations).

When you enrol you are personally liable to pay your tuition and other fees in line with the University's Fees Regulations (visit londonmet.ac.uk/regulations). If you have outstanding University debts, you will not be permitted to re-enrol at the University in future years and if you are in your final year of study and any part of your tuition fees is outstanding your award may be withheld and you will not be permitted to attend a graduation ceremony.

This prospectus is published in February 2017 as a guide to students planning to enter a university course in autumn 2018 or later. All fees quoted in this prospectus may be subject to change and you will be notified of any such change when any offer of a place is made to you by the University.

Tuition fees for UK and EU undergraduate students enrolled in 2018 will be set in accordance with the levels permitted by the UK government. At the time of writing, it is anticipated that the fees for new students for the 2018–19 academic year will be around £9,500, subject to government approval. Tuition fees are likely to change each subsequent year from 2018 and these changes will be in line with UK government policy. EU student fees may be subject to change depending on the future of the UK's membership of the European Union. All course fees are subject to an annual review. Visit londonmet.ac.uk/coursefeechanges for the most up to date information.

London Metropolitan University processes personal data belonging to its applicants, students and others and complies at all times with the Data Protection Act 1998.

The University's Student Data Protection Statement is available at londonmet.ac.uk/data-protection. We have an equal opportunities policy and if you would like a copy, please ask us.
